Hospitalización

Causa de hospitalización	nº de hospitalizaciones	Días totales de hosp por causa
Cardíaca	30	322
Infecciosa (no peritonitis)	32	405
Neoplasia	2	9
*Otras	53	450
Peritonitis	25	347 (↑)
Social	1	10
Vascular	13	151
Total general	156	1694 (↓)

Conclusiones

Causa de hospitalización	nº de hospitalizaciones	Días totales de hosp por causa
Cardíaca	30	322
Infecciosa (no peritonitis)	32	405
Neoplasia	2	9
*Otras	53	450
Peritonitis	25	347 (↑)
Social	1	10
Vascular	13	151
Total general	156	1694 (↓)

Nº de casos éxitus

Conclusiones

- Hay mejoría en la recogida de datos de diálisis DP
 - Comunicaciones en congresos SEN y SGAN
-
- Mejorar la inercia de la vuelta a HDC del trasplantado
 - Mejorar la prevención de peritonitis para alcanzar objetivos guías y revisar episodios de cultivos negativos
 - Intercambio entre técnicas domiciliarias
